

Addressable

Fire Alarm Repeater Panel

Model : PTSAFAP501-RP

Datasheet

<http://www.pinetreesystems.com>

Outline

Repeater panel is designed to provide full indication of events and controls of the main control panel installed in a different location and is updated through the network. It allows the user to remotely reset the main fire alarm system, silence sounders and initiate evacuation.

Technical Specification

Product Class	: Addressable
Primary Supply	: 230V AC \pm 10%-15% (nom)
Secondary Supply	: 12v 7Ah Battery (2 nos)
Operating Voltage	: 30V DC \pm 1V
Relay contacts	: 2
Indications	: TFT
Networking	: Yes
NAC Output	: Yes
Housing	: Mild Steel
Operating Temperature	: 0°C to +50°C
Operating Humidity	: <95% Non Condensed

Features

- TFT display with Touch Screen
- Optional Digital Dialer Interface
- Fire / Fault relay
- Event log with date and time stamp
- Onboard Self Test
- Auto program functionality
