

IP Based

Network Hooter / Siren

Model : PTSIPHTX501

Datasheet

<http://www.pinetreesystems.com>

Outline

PineTree offers Network IP Siren that provides essential alert and warning tones triggered in case of emergency from compatible activating devices.

Featuring a very loud alarm with three selectable tones, the device also includes in-built battery backup. IP based Siren is a perfect solution for your IP based emergency notification system. Web based configuration allows to easily configure the device in minutes.
