

Addressable

POE Enabled Control Module

Model : PTSPECMX501

Datasheet

<http://www.pinetreesystems.com>

Outline

POE Based control modules provides supervised wiring circuit for any external devices or notification units like (horns, sirens, strobes etc). Modules can be activated or deactivated on command from the control panel or appropriate application.

Technical Specification

Product Class	: IP - POE - Addressable
Primary Power	: POE
Housing	: ABS
Protocol	: UDP/TCP IP
Rating	: 1A @ 230V AC 2A @ 24V DC
Operating Voltage	: 12-15V DC
Operating Temperature	: -10°C to +55°C
Colour	: Red
Configuration	: Web based
Addressing Method	: Electronic
