

Addressable

# POE Enabled Manual Call Point

Model : PAIPMCPWE901

## Datasheet

<http://www.pinetreesystems.com>

### Outline

POE based manual call point is a POE-powered device meticulously designed for the purpose of triggering alarm manually in the event of fire or any other emergency. The devices utilize the network to broadcast the alarm data efficiently. Network Alarm Control Panel receives, interprets, and displays the alarm data while activating pre-configured sirens within the network to alert occupants and responders.

Each device is uniquely identified through an electronic ID, facilitating rapid response times from emergency personnel, and is fully compatible with a wide spectrum of devices within its ecosystem. In order to enhance adaptability across diverse configurations, these devices are equipped with dual power configurations.

### Features

- POE Enabled
- Low standby current
- Dual Power Source
- Plug & Play installation

### Technical Specification

<b>Product Class</b>	: IP Based - POE - Addressable
<b>Power Supply</b>	: POE / 9V Battery
<b>Housing</b>	: ABS
<b>Type</b>	: Resettable
<b>Alarm Output</b>	: RED LED
<b>Operating Temperature</b>	: -10°C to +55°C
<b>Operating Humidity</b>	: <95% Non Condensed
<b>Addressing Method</b>	: Electronic
<b>Connectivity</b>	: RJ45 / WiFi
<b>Network Protocol</b>	: UDP/TCP-IP/SNMP
<b>Standards</b>	: 802.3af / 802.3at

### Compliance

CE-5336  
Complied with  
EN54-11
