# Public Address Talkback Speaker/Sounder

Model: PTSPATBSS002

## Outline

Pinetree's range of sounders/talkback units for public address is ideally suitable for speech, music, alarm reproduction delivered from FAPA console. These devices are designed for broadcasting crystal clear audio messages / live announcements during day-to-day operations or any emergency situations, helping towards safe evacuation. Talkback feature further allows to transmit and establish voice communication between the panel and remote talkback unit.

## Technical Specification
