

Addressable

Flameproof LPG Detector

Model : PTSAFLPG501

Datasheet

<http://www.pinetreesystems.com>

Outline

Pinetree offers Addressable Flame Proof LPG leak detector that provides essential alert when it detects the presence of LPG leak with greater accuracy. The device communicates the emergency to the control panel that alerts the designated zone and is suitable for residential and commercial applications.

Features & Benefits

- Low standby current
- Sleek, low-profile design
- EMI/EMC protection for reliability
- Soft addressing
- Detects natural and LPG Gas
- Durable Sensor Head

Technical Specification

Product Class	: Addressable
Sensor	: LPG
Protection	: Flame Proof IP65
Area Classification:	Safe area
Power Supply	: 24V DC
Operating Voltage	: 18-24V DC
Humidity	: 0-95% non condensing
Colour	: RED/ GRAY
Finish	: Anti Corrosive Powder Coating
Housing	: Aluminium
Standard	: IS-13947/93
