Addressable

Loop Powered
Sounder Beacon

Model : PTSASBX501 / PTSASBX501-3W

Datasheet

Outline

PTSSBR0 is designed to be used with Pinetree's range of Addressable Fire Alarm Control Panels and provides Audio Visual notification with high sound output during emergency. These devices are wall mounted and has two variants with tone selection.

Features & Benefits

Low current consumption

User selectable Tone*

Easy installation and maintenance

Loop powered / External power selection

Excellent reliability high stability

Technical Specification

Product Class	: Addressable
Sound Level	: 90 db @ 10 feet
Alarm Current	: 30mA
Operating Voltage	: 18-24V DC
Housing	: Mild Steel
Alarm Output	: Audio Visual
Operating Temperature	: -10°C to +55°C
Operating Humidity	: <95% Non Condensed

Mechanical Specifications

45 mm
100 mm
100mm

Dimensions

Height	: 100 mm
Width	: 100 mm
Depth	: 45 mm

Approvals

CE
