

Addressable

Network Alarm Control Panel

Model : PTSNFAP501

Datasheet

<http://www.pinetreesystems.com>

Outline

Network Alarm Control Panel is the core component of the IP based alarm system. Panel utilizes network (WiFi / Wired) for communicating with devices and is bundled with self test and supervisory features.

NFAP501 Series of Alarm panels is engineered for residential, commercial and industrial applications with features that minimize installation cost and time. Touch Screen TFT further simplifies the system operation, installation and maintenance. They offer the design flexibility, expansion compatibility and operation reliability for large scale installations.

Optional Features

- Digital Dialer Interface
- Notification APP
- I/O Module Connectivity

Technical Specification

Product Class	: IP Based - Addressable
Operating Voltage	: 230V AC \pm 10%-15% (nom)
Secondary Supply	: 2 x 7 ah Battery
Housing	: Mild Steel
Operating Temperature	: -10°C to +55°C
Operating Humidity	: <95% Non Condensed
Addressing Capacity	: 250 devices per node
Interface	: 5" Touch Screen
Connectivity	: Network Port / WiFi
Weight	: 4.5 Kg (Excluding battery)
Colour	: Red

Compliance

CE-0038

EN54-2 EN54-25
