Product Leaflet

Power Over Ethernet
Smoke Detector

PINE TREE
SYSTEMS
Manufacturer & Solution Provider

SENSE with
simplicity

Features

Power Over Ethernet

Dual Power Source / Dual Connectivity

Sleek, low-profile design

Removable cover and insect screen

Electronic & Manual Addressing Feature

Plug & Play installation

TCP/IP, UDP

IEEE 802.3af / 802.3at

Extended Battery Life

General

POE enabled Smoke Detector is an innovative device designed to enhance fire detection and emergency response capabilities. The cutting-edge photoelectric detector is engineered with Power over Ethernet (PoE) technology, seamlessly integrating both power and data transmission over the network.

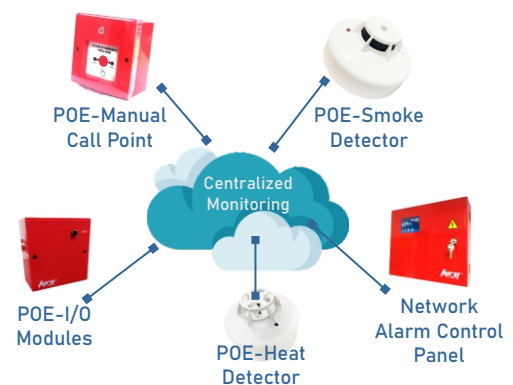

Self-Test
